## Service Learning the Dutch way!

As of September 2011 a new Dutch law will come into effect: each student between the age of 12 and 16 has to do a civic internship of 72 hours. Civic internships are integrated in the secondary school curriculum and will help young people to develop skills, necessary to participate in society. MOVISIE is in charge of implementing the introduction of civic internships. Our task is to support the building of a new national infrastructure. We do this in collaboration with CPS, a national organization for educational development and advice.

In his presentation Adriaan Vonk will show you:

- How we deal with the matter of ‘mandatory volunteerism’
- How schools, volunteer organizations and local governments work together
- Some best practices of civic internships
- How funds are obtained and allocated
- How MOVISIE coordinates and trains 300 intermediaries between schools and volunteer organizations

Adriaan invites you to share your view on the design of the programme. Let’s discuss how we can create a sustainable effect for the future of youth and volunteering!
